

The SES Annual General Meeting was held on April 29, 2009 in Saskatoon.

A wine and cheese mixer kicked off the event and attending SES members heard from guest speaker Curtis Olson about **The Shift Home: Making Green Affordable**. Curtis talked about his strategy for delivering modern, green and affordable housing through the development of the Shift Home, and how it's shifting the city's development towards a path of environmental, economic and cultural sustainability.

In addition to the usual business items, such as approving the financial statements and an auditor, SES voted in its Board of Directors. New directors are: Sherry Buller and Margaret McKechney, who join re-elected members: Max Abraham, Richard Matchett (as Treasurer), Bill Wardell, and Bert Weichel (as President). For a complete list of the SES Board of Directors (including those Board members continuing on in the second year of their two-year term, please contact the SES office, or view the SES website at: <http://www.environmentalsociety.ca/about/who.html>). Members can also receive a complete copy of the financial statements by contacting the SES office.
